

STANDARD ACCESSORIES

In addition to the standard accessories provided with your meter, JGR offers additional accessories including a variety of detector adaptors and remote heads to enhance your testing capability.

ADDITIONAL ACCESSORIES

Detector Adapters

JGR offers a comprehensive line of detector adapters for a variety of fiber types and applications. Manufactured with precision to ensure repeatable ferrule positioning and reliable performance, JGR Detector Adapters are indispensable test instrument accessories.

Customized Solutions

In addition to our standard products, JGR offers detector adapters tailored to your particular requirements.

Remote head

The JGR 5 mm and cavity remote heads offer flexibility in testing setup so that measurements may be taken at a distance from the measuring meter.
